## **Kerry Tourism Industry Federation (KTIF) Procurement Policy**

KTIF's Procurement Policy is a process where we seek to source goods, services or works produced in a way that minimises social and/or environmental damage. We commit to promoting green procurement, in order to support our Sustainable Destination strategy and to align with both Ireland's environmental and wider sustainable development objectives and the United Nation's Sustainable Development Goals.

KTIF endeavours to minimise the environmental 'footprints' of our procurement activities by purchasing products and services that cause minimal adverse environmental impacts while offering high quality products and services at competitive prices.

Where possible we communicate via digital means and keep records on digital files to reduce printing and reduce paper consumption. When it is necessary to procure printed materials, our objective is to buy local where possible to reduce air miles and carbon impact on the environment.
